## **Three Year Strategic Plan (SDP) 2015-2018**

*Learning to Lead our Lives*

## INTRODUCTION

The 2015-2018 School Strategic Plan (SSP) sets out the key priorities and actions for the school's future development and includes the contribution the school will make to achieving local and national priorities. This plan has been drawn up following consultation with staff, students, parents, school partners and other stakeholders during the Summer term of 2015 and uses evidence from the on-going school's self-evaluation processes. School Leaders and the Governing Body have used this evidence and stakeholder views to identify the key strengths of the school and the areas which need to improve so that the school meets its aims and objectives.

Monmouth Comprehensive School has 5 strategic priorities which are intended to provide the framework for our planning over the next 3 years. The 1 year School Action Plan (SAP), 2015/16, provides an overview of whole school outcomes and the key actions to be taken in the current year. In addition, each member of our senior leadership team and each team leaders have their own action plans which are reviewed at line management meetings.

The 1 year SAP will be evaluated by the Governing Body and school leaders on a termly basis. It is intended to be a 'live' document that enables the school to fulfil its aims and secure ambitious yet sustainable improvement. The 3 year strategic plan will be evaluated on an annual basis by the Governing Body, the school community and wider stakeholders.

### Learning to Lead our Lives

In our School, we encourage everyone to have the highest expectations of themselves and each other as together we learn to lead our lives.

### Our Goals

We want our students to :

- Achieve and develop the skills they need for the future
- Show respect for themselves and others
- Be emotionally and physically healthy with a strong sense of self-worth
- Be responsible, caring and ready to make a positive contribution to their communities
- Be intellectually curious lifelong learners
- Be able to adapt to different circumstances, being independent or collaborative as the situation requires.

## The key strategic priorities for 2015 - 2018 are:

- 1. Close the Gap in educational attainment, achievement and success so that every student achieves exceptional outcomes.** Embed consistently high expectations in learning and attainment to meet the needs of all learners.
- 2. To collaborate across our school, with schools and other educational settings, including Cluster working so that we are a confident and secure community, which celebrates individuality and success.** Further develop collaboration across the school and with schools, as well as other educational settings, including Cluster Working.
- 3. To raise standards in teaching and learning so that all teaching is at least good or excellent with high expectations in learning and attainment to meet the needs of all learners.**
- 4. To embed our self-evaluation processes, constantly celebrating our strengths and seeking to improve**
- 5. To provide a 21<sup>st</sup> Century Learning environment and curriculum that meets the needs of all learners.** All students and staff will be able to use technology proficiently and explicitly to support learning.

These priorities will be reviewed annually using the school evaluation schedule and processes.

The total predicted costs of delivering this plan with the school staff is £1 million. This includes grant money EiG and PDG.
