

Year 7 Numeracy Revision List

The following list of topics will give you optimal preparation for your National Numeracy Tests on Friday 28th April.

You have also been given a practice test in both Procedures and Reasoning, which you should allow 30 minutes each to complete (electronic copies are available on the school website). Make sure you bring it to your maths lesson for the first lesson back after the Easter break.

Make sure you are confident in the following areas:

Addition

Subtraction

Multiplication

Division

Using a calculator

Square and square root

Fractions, decimals and percentages

Ratio and proportion

Rounding

Bidmas (Brackets, Indices, Division, Multiplication, Addition, Subtraction)

Area and Perimeter of rectangles and triangles

Converting between units

Scales

Averages

Drawing and interpreting a variety of graphs and diagrams

For examples of the above, please refer to the practice tests or your maths book. If you need help on these areas, we would really recommend looking at www.mymaths.co.uk Login: monmouth Password: learning

Essential Equipment I Need :

Pen

Pencil

Rubber

Ruler

Calculator
